

PETITION FOR EXTENSION OF TIME UNDER 37 CFR 1.136(b)		Docket Number (Optional) 10111953
In re Application of Cheng Chung Wang		
Application Number 10/647,814	Filed August 25, 2003	
For Inflatable product having an electrical inflator		
Art Unit 3746	Examiner Freay, Charles	
<p>This is a request for an extension of time of <u>1 month</u> (days), (weeks), (months) under 37 CFR 1.136(b) in this pending application. An extension of time is not available in this application under the provisions of 37 CFR 1.136(a); however, additional time to respond may still be granted under the patent statute. The petition fee under 37 CFR 1.17(g) is required. The reasons for requesting the extension of time are the following:</p> <p>The due date for filing a Reply Brief in the present application is July 27, 2010. Extension of time is only available under 37 CFR 1.136(b). See 37 CFR 41.41, MPEP 1208.</p> <p>The Board of Patent Appeals and Interferences mailed a Decision on Appeal on July 22, 2010 in connection with an appeal filed in the reexamination of US Patent No. 6,793,469 (Control. No. 90/008, 926), from which the present application claims priority. (Attached.) The decision was received by Applicant on July 26, 2010.</p> <p>The Decision reverses rejections over Owen et al (US 4,678,014) and Chaffee (US 6,237,653), two references applied against the claims in the present application. The claims of US Patent No. 6,793,469 contain limitations corresponding to those at issue in the present application. For example, independent claim 14 of US6,793,469 reads: an inflatable product including: an inflatable body; a socket built in the inflatable body; an electric pump, including a pump body and an air outlet, connected to the socket to pump the inflatable body, wherein the pump body is wholly or partially located in the socket; a connector provided on the electric pump for connecting an external power to actuate the electric pump, while claim 2, the only independent claim of the present application reads: an inflatable product including: an inflatable body; a socket built in the inflatable body; and an electric pump, including a pump body and an air outlet, connected to the socket to pump the inflatable body, wherein the pump body is wholly or partially located in the socket.</p> <p>Applicant respectfully requests a one month extension of time to file the Reply Brief in light of the potential significance of the Decision in connection with the present appeal.</p>
